<b>Activities (if any)</b>	<p>Bhoomi Utsav is a flagship event of the EnviSAGE society to celebrate Earth Day every year. This year, two programmes were organized, a debating competition and a case study competition. These competitions were designed to foster environmental awareness and promote sustainable thinking among students through a range of interactive and thought-provoking activities. The event kicked off with a <b>debate competition</b>, where participants tackled pressing environmental topics such as pollution, climate change, and sustainability. Students confidently shared their perspectives and proposed well considered solutions, making the session both informative and engaging.</p> <p>Another highlight was the <b>case competition</b>, in which participants examined real-world environmental challenges and presented practical, innovative solutions. This activity not only enhanced students' problem solving, analytical, and teamwork skills but also provided deeper insight into contemporary environmental issues. With enthusiastic student participation, EnviSAGE successfully encouraged critical thinking and creativity while spreading meaningful</p>
