Post-Event Report

Event	Volunteer project [bird walk]
Topic	Campus bioblitz birds
Organizer(s)	WWF
Date	4th November 2025
Time	9:00 AM - 10:30 AM
Duration	1 hour 30 minutes
Place/Platform	WWF India office, Lodhi Garden
Number of Participants	Four from our college
Guest Speaker(s)/Trainer(s)	Nikhil John
Welcome Speech by:	Miss Tanu Saini
Introduction of the Speaker by:	Miss Tanu Saini
Activities (if any)	
Bird Walk Session	
Guided Nature Walk: The event commenced with a guided bird walk that started from the WWF India office and continued towards Lodhi Garden. Participants explored the natural surroundings while observing a diverse range of bird species.	
Expert guided training: A trained bird expert accompanied the group throughout the walk, providing detailed explanations of key features, behaviours, and identification techniques for the birds spotted during the session.	
Species observation at the pond: At the Lodhi Garden pond, participants observed several species in their natural habitat. The expert shared valuable insights into feeding habits, nesting patterns, and other distinctive

characteristics of the birds.

Interactive knowledge sharing:

Participants engaged in interactive discussions, asking questions about bird species, migratory behaviour, habitat preferences, and their ecological significance.

Volunteer Participation:

As part of a volunteer initiative organized by the WWF India office, participants actively contributed by documenting bird sightings and learning about conservation practices.

Main Ideas

1. Understanding Bird Diversity: The activity enabled participants to gain insight into the rich variety of bird species found within the Lodhi Garden ecosystem.
2. Awareness of Bird Habitats: The walk underscored the importance of ponds, trees, and green spaces in sustaining bird life and supporting their ecological needs.
3. Importance of Conservation: The expert emphasized the significance of conservation efforts aimed at protecting both local and migratory bird populations.
4. Behavioural Insights: Participants learned about key behavioural aspects of birds, including feeding habits, breeding cycles, and the impact of environmental changes on their natural patterns.
