

## **Civic Awareness Project**

**Organized by- Project S.E.V.A. in collaboration with Youth for Seva.**

Project S.E.V.A. in collaboration with Youth for S.E.V.A. took a righteous initiative towards Civic Awareness on July 31st, 2021 for the betterment of the community. The project was completed by 30th September, 2021.

Under this project, a team of 8 volunteers conducted a total of 44 sessions for children from the deprived sections of the society. The duration of each session was one hour and was conducted in the online mode.

The volunteers mentored the children through interactive video lectures and presentations on three topics, namely- Waste Management, Water Conservation and Road Safety.

The team conducted informative sessions to guide the children on how they can conserve water and manage waste and also taught them on the safety measures that should be followed on road.

The children were very inquisitive and enthusiastically interacted with the team and asked their doubts regarding the topics they were taught. They even came up with their more creative ideas and thoughts regarding the topics.

Overall, the project proved to be beneficial for both the children and the volunteers as children learned about these relevant issues in a fun manner and volunteers enjoyed teaching them.
