

Crypto Strike

Date - 1st- 2nd March, 2021

Responses - 380 plus

The event was divided into two parts, First, the webinar was conducted on 1st March, 4:00 pm on google meet and then Mock Crypto Trading Competition was conducted from 1st March, 6:00 pm to 2nd March, 5:59 PM. We received 380 plus registrations in total for both.

Part I

SOFICA had conducted an inspiring seminar on 1st March 2021, the theme for which was "Revolution of Decentralized Finance". We had with us the most prominent speaker Mr. Ravikant Agarwal (CSO, Ayanworks) and Mr. Bhavya Narula (Product Hacker, PlotX.io) as the host for the seminar. Topics such as Blockchain and its key constructs, Structure and rise of DeFI, etc were touched upon. After the speaker threw light on their respective topics, our host came up with relevant questions for the speaker to answer. It was extremely an interactive session as an informative introduction to decentralized finance. The virtual conversation lasted more than one hour.

Part II

Mock Crypto Trading Competition was conducted on the app [Roostoo](#) and more than 300 plus participation were registered in the app. Trading was live for 24 hours. The participant who had been able to gain maximum return will be declared as the winner.

Both the events were an immense success saw a tremendous participation of students across the country.
