E-Bridge

DATE: 12 February 2021

VENUE: Social Media

Entrepreneurship isn't just a label, it's a lifestyle"

Udyamita- The Entrepreneurship Cell of SGND Khalsa College organized E-Bridge, an event designed to showcase the stories of the young and promising entrepreneurs around us.

The event was focused on understanding the different journey each entrepreneur experienced, and rewarding the best amongst them. With numerous registrations from different fields, the event got off to a great start.

All registrants were required to answer some interesting questions about their own ventures, and having received some inquisitive responses, it must be said that all participants fared very well in the competition.

The different ways in which each participant answered the same question highlighted the essence of entrepreneurship- something that the event was made for. All the responses were then evaluated, partly by professors and partly by the general consensus on social media- to find the winners of E-Bridge.

Finally, everyone associated with E-Bridge, from the participants to the readers, gained something valuable from the event. The event's objective of delving deep into some local entrepreneurship stories was well accomplished.
