<b>ABOUT THE DRIVE</b>	ENACTUS conducted a deworming drive near Karol Bagh to initiate Project Sanrakshan 2.0. Street dogs were fed with deworming powder which was made up of pumpkin seeds. We mixed this deworming powder in milk so that it will not only nourish the dogs with nutrients but will also help in the detoxification of dogs curing and protecting them from disease-causing germs and bacteria. Water was added to the mixture since dogs find it difficult to digest pure milk. The ENACTUS team provided for 25+ dogs leading them to a healthier and safer life.
