

ENIGMA: BREAK THE CODES

Date – 8th November, 2020

Participants - 300

The event was conducted from 8th November, 12:00 noon to 9th November, 7:00 PM. We received a total 300 registrations. Candidates were sent a document a day prior to the event mentioning the rules and guidelines for the same.

We posted six riddles in total, three on each day at 12 noon. Riddles were a combination of various cyphers which lead the contestants to the final path where they came across questions from various financial movies and documentaries. These riddles were posted on SOFICA'S Instagram account and we were taking queries through the registered email address of the participants.

The answers had to be mailed to us on our official email address before 7:00PM and the criteria of judgement was –

- Number of correct answers
- Amount of time
- Number of hints taken

In the end a feedback form was mailed to the participants to help us improve further.
