Introduction to the Speaker	<ol style="list-style-type: none">1) Dr. Jasmine Kaur Lamba2) Ms. Komal Chhikara

ACTIVITIES:

- The event began sharply at 9:30 a.m. IST.
- Dr. Jasmine Kaur Lamba, our Convener and host for the day, warmly welcomed all the conference attendees.
- Dr. Gurmohinder Singh, our principal, addressed the conference with compassionate and motivational comments.
- The guest speakers enlightened the participants on the conference on the topic " Digitalization - The Future of Finance".
- Mr. Rajkumar Kanasingam, the chief guest of the conference expressed his views on web3 and decentralised finance.
- Some of the topics covered by Mr. Jogendra Singh Sir were- blockchain technology, cloud computation, AI and ML in finance, robust risk systems, IoT, impact of digitalisation on businesses.
- Mr Simarjeet Sir asserted that money is on the verge of a major transformation. Challenges are always evolving. We should never shy away from them as we grow, we should think more strategically.
- Access to digital payments and lending facilities have been made more accessible through upcoming fintech technologies.
- Mr. Ankit Jindal, an intelligence officer discussed the merits of the booming fintech.
- Ms. Monica Jasuja, a product leader touched upon the transition of money to digital systems and the era of Artificial intelligence.
- Mr. Syed Musheer Ahmed highlighted the developments in the fintech world globally.
- Mr Anuj Jindal spoke about the loopholes that can be exploited in the fintech world and

SRI GURU NANAK DEV KHALSA COLLEGE

Dev Nagar, Delhi - 110085

how fintech companies have been falling because of not being able to solve real problems.

- This helped the presenters refine their research and conclude their papers meaningfully.
- During the panel discussion, the panelists gave their valuable inputs related to the fintech world such as regulations and compliance in fintech, loopholes in fintech, career options and evolution of fintech industry etc.
- The participants asked their doubts which made the conference even more interactive.
- Prof. Alok Pandey Sir emphasized on the topic of digital finance for all and its dimensions. He also gave an overview on how the world has been advancing in the recent years in terms of growth of digital finance industry. He also shared his greatest learning in the field of finance from his experience of 25 years.
- We were fortunate enough to have Mr. Juan kanggrawan (Head of Data Analysis at Jakarta Smart City) as one of the keynote speakers for the session. He simplified the digital finance transformation process for the attendees and also explained the concept of smart city.
- After each speaker threw light on their respective topics, our moderator came up with relevant questions for the speakers to answer.
- The presenters provided a brief about their papers in 10 minutes which was followed by Mr. Simarjeet Sir's appraisal and his noteworthy suggestions.
- Some of the topics for the research papers included start-up funding, securing ATMs, cashless economy, cryptocurrency, analysis of frugal economies in the changing global scenario etc.

The event was a massive success and we saw tremendous participation of students as well as teachers across the globe.

MAIN IDEAS:

- SOFICA is the first society in the whole DU circuit which offered such a huge platform to the students who are interested in writing a research paper and gave them the exposure they need and the opportunity to showcase their talents in front of such enthusiastic audience.
- This event provided the opportunity to not only the presenters but also to the audience to get connected with such recognized speakers from across the globe who have such a in depth knowledge about the world of finance.
- This event also contributed in spreading the awareness about the developing need of digitalization in the Finance world.
- The ideologies and thoughts shared by our speakers in the conference were both unique and fresh which helped the audience to know opinions and the works of finance experts' way before everyone else.

Vote of thanks

Mr. Nishchay Dhingra

Jakarta Smart City 4.0 Framework

2 Smart City Ends	3 Values
4 Principles	5 Co-creators
6 Outcomes	7 Indicators

The diagram is a circular framework with 'Innovative City Happiness' at the center. It is divided into seven segments: Smart People, Smart Economy, Smart Environment, Smart Mobility, Smart Governance, Smart Living, and Smart Branding. Each segment contains specific indicators and values. For example, Smart People includes 'Citizens & Community' and 'Savvy Data'. Smart Economy includes 'System & data Driven Tech' and 'Economy Growth'. Smart Environment includes 'Sustainable Environment' and 'Smart Collaboration'. Smart Mobility includes 'Accountable & Trusted' and 'Other Governments'. Smart Governance includes 'Digital Experience (AI Inside)' and 'Smart Collaboration'. Smart Living includes 'Easy & Enabled' and 'Smart Collaboration'. Smart Branding includes 'Academics' and 'Smart Collaboration'. The center also lists 'Quality of Life' and 'Sustainable Environment'.

CONCLUSION:

AI will likewise smooth out the precision for information section, further develop monetary misrepresentation discovery and furthermore assists with giving continuous information to back experts and simultaneously assists with giving better answers for their clients. Eventually, we can't pronounce that AI will actually want to work at 100 percent effectiveness yet it can assist with lessening human-based blunders. However there are many beginning deterrents the majority of the finance organizations are investing some parcel of energy to carry out Artificial intelligence in finance capacities on the grounds that their benefits are more than their burdens.
