

JUDGED: The Consumer Court Simulation

Date: 8 February, 2018 Venue: Garden Area

"Customers don't expect you to be perfect but they expect you to fix things when they go wrong".

JUDGED was a platform where participants experienced the real life court environment of consumer rights and fights and got the chance to peep into real life cases by being their representatives, fighting for own and thus unleashing the sides still not known.

The simulation compelled the participants to scratch their brains and present the heated arguments. It was overwhelming to get huge registrations and participation from students of various institutions.

The event began by felicitation of our esteemed jury Mr G.K.Arora, CA Harjinder Singh, Mrs. Neeta Dhingra, CA D.S.Sharma and Mrs. Sukhwinder Kaur.

The competition started with a preliminary round ie. A questionnaire based on consumer awareness. The neck to neck competition lead the teams to cross the tie breakers to make it to the finals .The battle of words folded up in the next round and the participants very well took forward their points and it sounded interesting. The judges actively gave their opinion and judgement in respective areas and was acknowledged by the participants and jury.
