

Report on Orientation

Project S.E.V.A. organized its Orientation Program on 27th July'21 for the new academic session. In the program, the core team members along with the convenors welcomed the new members officially to the society. The program was organized to acquaint the students with the working of the society. Both the Presidents of Project S.E.V.A. had a detailed discussion on the projects undertaken so far. The convenors shared their experiences and motivated the team with their words of wisdom. The new members also enthusiastically interacted with the team and introduced themselves to the core team and convenors.
