ABOUT THE EVENT	<p>An event was conducted by Shyam Lal College on 22nd September, 2022 at 10:30 in the college premises. It was a great experience for the team as there were a lot of stalls laid by various Enactus societies. Our team got tremendous knowledge there. We went with our members to set up a stall that would represent SGNDKC Enactus. Our prime agenda was to make other Enactus societies aware about our project sanrakshan as well as project Inas. We had a word with other colleges and portrayed our ideas and vision to them, how we worked on Sanrakshan and how radium collars not only gave life to the voiceless but also generated employment for the dispersed tailors. We explained to them our project Inas and its benefits that would minimise the electronic waste that is being generated in the society. It was a great exposure and an excellent opportunity for Enactus to collaborate with other societies.</p>
