

Title of Event – Rootkit: A Heist to Escape

Organized by Cyberclan - The IT Society

Date – 10th March 2021

Number of participants – 150+

The month of March unfurled the tech insights feeling in one and all. The IT Society had organized the event, Root kit to provide a platform to the participants across the country from multitudinous universities to compete in a simulated tech environment. The purpose of the event was to provide the students an insight into the tech aspects such as cryptography, cipher techniques etc.

Cyber Clan- The IT Society of Sri Guru Nanak Dev Khalsa College 2021 had organized an event, Root kit, which commenced on **10th March '21** at 4:00 pm. **The Root kit: A heist to escape** was a quiz-based event, challenging the cryptography and cipher techniques of the peers. The event consisted of 10 quizzes, based on the tech insights and the problem-solving skills of the participants.

With around 150+ overwhelming registrations across different states and universities, the event was a great success.

The event culminated with vote of thanks, taking into consideration the feedback given by the participants with the promise to come back with numerous challenging events.
