Introduction to the speaker	Mr. Robin Suyesh (Assistant Professor, Sri Venkateshwar College)
Activities	<p>On the occasion of "World Environment Day" YUVA unit of Sri Guru Nanak Dev Khalsa College organized a Talk on Conservation of Urban Wildlife.</p> <p>Speaker Mr. Robin Suyesh recap the main ideas discussed during the talk. He Reinforce the importance of conserving urban wildlife for the well-being of ecosystems and human communities and Encourage individuals to take action and contribute to urban wildlife conservation efforts in their own capacity.</p> <p>The volunteers highlighted the importance of conducting a talk on conservation of urban wildlife. For example:- Conserving urban wildlife can directly enhance the quality of life for urban dwellers. Wildlife and green spaces provide numerous benefits, such as improved air and water quality, reduced pollution, and increased mental and physical well-being.</p>
Main Ideas	<ul style="list-style-type: none">● World Environment Day is an important occasion to raise awareness about environmental issues and promote sustainable practices.● The main idea was to briefly introduce the importance of urban wildlife conservation and highlight the rapid urbanization and its impact on wildlife habitats. To mention the significance of preserving biodiversity for ecological balance.● A talk on urban wildlife conservation can encourage community engagement and involvement in conservation efforts. It can inspire individuals to participate in citizen science initiatives, volunteer for local conservation organizations, or take part in habitat restoration projects. By building a sense of community around urban wildlife conservation, people can collaborate and work together to create positive change.● Urban wildlife plays a crucial role in maintaining ecological balance within cities. highlighting the interconnectedness of species and ecosystems, the talk can underscore the importance of preserving biodiversity. People will better understand how the loss of even a single species can disrupt the delicate balance of urban ecosystems, leading to negative consequences for human well-being
