

# **Webinar on Presentation Skills**

Date: 9 February, 2017

Venue : Room No. 102

It is always a pleasure to write about events hosted by the society that has a legacy of its own. We always try our level best to conduct events that help shape up skills and initiate to find the hidden talents within the students of the college.

We held an interactive session with the students on presentation skills which on the outset looks something very basic but many lacks at it at large. This hour long session was directed at how to develop great presentation skills and was hosted by Ms. Gurneet Kaur who polished the students on the same.

There are many facets of making and delivering a perfect presentation and the event was initiated to help students master this simple yet important thing in today's world of leaders. Ms. Gurneet Kaur addressed basics and stretched to the complexities of making and delivering the presentations. All the minute details were touched upon and ended up on a very interactive note and was yet another successful outing on Udyamita's part to make a positive impact and another learning experience for the students of the college.
