

Webinography

Online Photography Webinar by Mr. Virendra Adhikari

Date: 20 July, 2020

Time: 3:00 pm – 4:30 pm

Platform: Google Meet

Participants: ~45

Amidst the lockdown and the resulting closure of colleges, Photobug society alongwith Pinhole, the photography society of SGTB Khalsa College organized a Photography webinar, titled Webinography. Although photography required hands on teaching, we wanted to utilize the current situation in the best possible manner.

Mr Virendra Adhikari, freelance photographer @vinee studio and ex-canon mentor was the resource person for the event. As per the requests of the participants, he chose to talk on three topics

- a) Basic Framing and Composition
- b) Commercial Photography
- c) Long exposure

Mr Virendra provided much insightful theoretical knowledge about these three topics. He explained them using his own photographs, highlighting the major and minor adjustments and improvisations he made while capturing them. The session was very interactive with students posing a number of questions which were not only answered by the resource person, but also initiated thoughtful discussions.

Overall, it was a wonderful collaborative event which was quite useful to all those who attended. The session ended with a vote of thanks by Ms Mansha Kaur.
