

Title of Event :- Inaugural Ceremony

Organized by:- Asankh Mathematics Society

Date:- 6th October 2019

Number of participants :- 55

Report of the event :-

With lots of excitement, the first- , second- , third -year Students of Mathematics Department of SGND Khalsa college inaugurated the New Mathematics society of the college "ASANKH" on 6th, October, 2019.

The chief dignitary of the day was former principal of SGND Khalsa College, Dr. Manmohan kaur. The ceremony commenced with a talk by Dr. Manmohan Kaur on the topic " Basic applications of mathematics in daily life and few insights on research work. "

She was splendid with her words and the students got to learn many new things. This was then followed by addressing the student body, with an elaborate and effective presentation on creating a nexus between classroom learning and research. The presentation stressed on the importance of doing things and not just learning them.

The debut event of ASANKH was splendid and every member of the society hopes to organize lots of such events in future.
