Main Ideas

- **To foster awareness on the importance of environmental protection** by sensitizing students and stakeholders to current ecological issues.
- **To promote sustainable and responsible development practices** that balance environmental, social, and economic considerations.
- **To facilitate active campus engagement and meaningful collaboration** with environmental organisations, NGOs, and governmental bodies.
- **To educate students on global, national, and local environmental challenges** through hands-on activities, workshops, field visits, and seminars.
- **To encourage youth participation in conservation and ecological action programmes** aimed at protecting biodiversity and natural resources.
- **To integrate environmental perspectives into academic and extracurricular activities** thereby strengthening the culture of environmental responsibility within the institution.
- **To develop leadership and advocacy skills among students** so they can contribute responsibly to environmental discourse and policy dialogues.
- **To strengthen networks and partnerships** between educational institutions, industry, and environmental agencies for collaborative initiatives.
- **To cultivate long-term behavioural change and ecological stewardship** among the youth, ensuring a more sustainable and resilient future.
