**Post-Event Report**

<b>Event</b>	Online orientation for how to Identify Plant/Tree Species
<b>Topic</b>	Identification of plants species
<b>Organizer(s)</b>	World Wide Fund for Nature
<b>Date</b>	09 october 2025
<b>Time</b>	10:00 am to 11:00 am
<b>Duration</b>	1 hour
<b>Place/Platform</b>	Zoom/online
<b>Number of Participants</b>	100
<b>Guest Speaker(s)/Trainer(s)</b>	Ms. Tannu Saini
<b>Welcome Speech by:</b>	Ms. Tannu Saini
<b>Introduction of the Speaker by:</b>	Ms. Tannu Saini
<b>Activities (if any)</b>	<ol style="list-style-type: none"><li>1. The activity began with a brief introduction to the World Wide Fund for Nature (WWF) and its role in biodiversity conservation.</li><li>2. Facilitators introduced the iNaturalist app as a global platform for documenting and identifying plant and animal species.</li><li>3. Participants were informed about how uploading photographs with location details contributes to biodiversity research and citizen science.</li><li>4. Step-by-step guidance was provided on using the app, including taking clear photographs, identifying species, and submitting observations.</li><li>5. The programme aimed to enhance biodiversity awareness, encourage citizen participation in environmental monitoring, and build practical digital skills in species documentation</li></ol>

### Main Ideas

#### 1 Introduction to Vision & Mission

The session highlighted the society's vision and mission, emphasizing its dedication to sustainability and its efforts to inspire students to actively participate in environmental protection.

#### 2. Overview of WWF Activities and Initiatives

EnviSAGE has partnered with WWF to enhance environmental awareness through engaging activities such as species observation using the *iNaturalist* app. These initiatives aim to strengthen people's connection with nature while supporting biodiversity conservation.

Trees too face some threats. Let us know !

## Sri Guru Nanak Dev Khalsa College Dev Nagar, New Delhi - 110005

### Shrubs

Example: Lippia. Shrubs are bushes, but you may not mind you at the fall. They generally have harder, woodier and thicker branches as compared to herbs. Some shrubs may also have flowers & fruits. Look out for shrubs and accordingly select the leafy

### HERBS

- Herbs can be easily identified by their smell. All the leaves on the bushes taste or smell good and aromatic.
- Herbs usually grow close to the land. So, you can take your walk. This might be a good idea for the power can easily be obtained under the canopy.
