Mentoring Session

Monday 20th September 2021

A mentoring session is planned for Monday, 20th September 2021 to enable the mentors to touch base with their student groups for **discussing how they are doing and gauge their preparedness for the eventuality of physical opening of the college.**

Students are requested to make sure they attend the session with their mentor so that they are able to benefit from these interactions.

The mentors can discuss the following:

1. Students' attitudes to physical opening (which may be around January '22.)
2. Challenges out-station students may face in this transition.
3. Preparedness of parents for the opening of colleges.
4. Any other matter that concerns them.
5. Mentors must reiterate the value of these sessions as a safe space where the mentees can share their ideas, hopes and fears.

Mentors are requested to contact their students well in advance and inform them about the sessions so that the session is well-attended.

Coordinator

Mentoring the Mentor Programme.
