Date - 19 March 2021

No. of participants: 60

NSS Unit of Sri Guru Nanak Dev Khalsa College has organized an Online Traffic Training Campaign on 19th of March 2021 at 05:00 P.M. Mr. Sunil Sen, Ms. Santosh Chauhan and Manpreet Singh were the guests of the event. The team also gave information about the "Motor Vehicle Act and Traffic Rules" and also said that the best way to keep others and yourself safe is to follow proper traffic rules. Whenever you drive a car, follow the traffic rules, it is important to wear helmet while driving a two-wheeler, obey the traffic lights to avoid accidents. One should always wear seat belt while driving a car. Avoid rash driving as speed is the core reason of accidents. Always carry all the paperwork of the vehicle. Mr. Sunil Sen and Mr. Manpreet Singh motivated the staff. They spoke of how Road traffic today is inherently

dangerous. In fact, in contrast to other modes of transport such as railways and air traffic, the road traffic system was not designed with safety in mind. Consequently, in road traffic it is us humans who make the difference between hazard and safety, with little keeping us from harm, should we make a mistake. Given that humans are almost inadvertently prone to make mistakes and commit violations, human behaviour is of particular interest for most road safety professionals. That is where road safety campaigns come in. Together with other 'behavioural' measures (e.g. law enforcement, education, training, and even infrastructure to some extent) road safety campaigns are used as a means of influencing the public to behave more safely in traffic. Road safety campaigns can be defined as purposeful attempts to inform, persuade, and motivate a population (or sub-group of a population) to change its attitudes and/or behaviors to improve road safety, using organized communications involving specific media channels within a given time period. It can have many and multiple purposes, such as informing the public of new or little-known traffic rules, increasing problem awareness or convincing people to refrain from hazardous behaviors and adopting safe ones instead. The college teaching staff along with NSS volunteers and other students of different colleges have attended the webinar as well. A strength of 60+ students were present in the session. The Traffic Training session lasted for 1.5 hours from 05:00 PM to 06:30 PM.
