Activities

Talk on "Beyond the Bot: The irreplaceable Human Connection in Education" for students to be delivered by the mentors in the mentoring session under the 'Mentoring the Mentor Programme', an IQAC initiative

Main Ideas

The talk was meant to sensitize both the mentors and the students around the need to maintain their human agency and empathy in learning and maintain a fine balance in the age of inevitability of automated learning. The emotional contact and interaction of students with their professors and a constant dialogue was deemed necessary for a quality education and Dr. Kour enriched the session by eliciting personal anecdotes of the impressions various teachers have left on the minds of their students, from the audience.
