

**Report on Bridge Course
of Economics and Accountancy
Department of Business Economics**

The Bridge course in Micro Economics and Accounting for Managers started on 8th January 2022 for first year students who have not studied Economics and Accounts in their higher secondary. Some more students, who got late admission also joined the course. The course helped the students to understand the basic concepts of Economics and Accounts. The classes took place via Google Meet for 2-hour duration spreading over 4 weeks.

The course helped the students understand the basic and general concepts of Economics and Accounts to enhance their understanding towards the subject. The students attended the lectures with full zeal and majority of them felt that the course improved their basic understanding and will help them in understanding the more difficult concepts in the subject during the regular course. Last few sessions were meant to solve students' difficulties and revise certain concepts. Overall, the students were able to bridge the gap from being from a non-economics and non- commerce background to understanding the concepts of the subject.
