Some of the assessment methods for Continuous Evaluation during the online mode of teaching

- In order to cover the syllabus of BOM, various teaching methodologies were used over the semester including case study, flipped classroom, presentations, game-based teaching among others. As revision classes were going on, a twist on the popular game of 'Dumb Charades' was organised keeping in mind the interests of the class. Students enacted the various management topics covered in the class. This was followed by an Emoticon Quiz to guess various management topics from the syllabus. The response was overwhelming and gave the students' morale a boost being able to recall those concepts. This was followed by a discussion on all these management concepts to develop and improve the conceptual understanding.

Business Organisation and Management, Semester-I Organisational Behaviour, Semester-VI

- With the aim of making the teaching-learning process more interactive and fruitful, a number of innovative methods were used throughout the semester. These included power-point presentations, Role-playing, quiz, case studies with real world situations. All these were meant to impart a practical application to the concepts taught in class. Also, to make revision class more interesting and ensure more participation, instead of the usual question-answer pattern, a Puzzle was given to the students covering all the important topics. It aimed at checking the conceptual clarity of students. The students participated with much more interest and a zeal to find the maximum answers.
