

# Vision Document

## 2021-22

*“To be an institution of repute, with a humane face, that is dedicated to academic excellence and social transformation by improving the quality of life of its students.”*

- ❑ *Empower young scholars through capacity-building skills.*
- ❑ *Enable young minds to think, imagine, analyse, assess, and express themselves through activity-based learning*
- ❑ *Make the institution a viable intersection of academic excellence and moral values*
- ❑ *Help contribute to community development meaningfully and provide fair access to the poor and socially disadvantaged groups in the light of changing economic, social, and cultural developments*

## Some Key Challenges:

- ❖ Improve Research Infrastructure and create Research Eco-system
- ❖ Streamline internal procedures for better organization and data-collection
- ❖ Reach out to the community outside of the institution in a reasonably practical manner
- ❖ Create employability for students through better learning opportunities with their focus on skill-enhancement

## Areas of Focus: Research

- Boost research infrastructure and research output in the institution, a research committee, comprising of faculty members and students, should be instituted.
- Work upon a database of publication resources, financial assistance, scholarships, and fellowships available nationally and globally to further research of multiple nature in humanities, social sciences, and commerce.
- Recognise the unique history of the college and its neighbourhood, the IQAC plans to create a memory 'unit' in the institution with the mandate of familiarize the students of the college with the historical and archival practices of people, places, communities and neighbourhoods, thus being an active building block in the praxis of 'local histories.'

## Areas of Focus: Internal Procedures

- Bring a fully comprehensive ERP system to include the following:
  - Admissions
  - Internal Assessment
  - Administration
  - Accounts
  - Teacher-Student Support

## Areas of Focus: Community & Industry Outreach

- To develop a multidisciplinary environment of learning that would take learning outside the ambit of classroom, it was envisioned to join existing Community Outreach arms of the College with Industry engagements for which the following units are created:
  - Entrepreneurship Development Cell (EDC)
  - Industry Institution Interaction Cell (IIIC)
  - Corporate Social Responsibility Cell (CSRC)

## Areas of Focus: Community & Industry Outreach

- These arms will strengthen the already ongoing programmes under the Central Societies, “Udyamita” and “Sofica,” that engage themselves in creating young entrepreneurs and providing financial knowledge to common people on the street.
- The vision sees a more active role by the students in creating an environment of peer-learning that would include cutting edge knowledge including FinTech to serve the purpose of educating young entrepreneurs about financial aspects of entrepreneurship.
- In the spirit of creating a multidisciplinary environment of learning the workings of CSRC are used as intersections between community outreach and industry engagement to boost the already existing society “Enactus

## Areas of Focus: Employability for Students

- The need to train the students for the various competitive examinations at the state and national level has been identified as an urgent need by the institution.
- To that end it has been decided to offer (individually or in collaboration) thirty hours short term courses to prepare interested students for the English language and General Studies components of these examinations

**The End**
